Dentists Quick Reference Guide

Version 2.0

The American Dental Association (ADA) and CAQH are working together to make it easier for dentists to enter and share their professional and practice data with dental plans and other healthcare organizations by utilizing the CAQH Provider Data Portal. Dentists can enter their professional and practice information one time and submit it to the participating dental plans and organizations of their choice, reducing the administrative burden of the credentialing process. This data can also be used to update provider directories and other business needs.

This new service works by allowing any US Licensed Dentist to access their CAQH Provider Data Portal profile by first logging into their My ADA profile on ADA.org/godigital. After logging into My ADA, and accepting the terms and conditions, dentists will be redirected to the CAQH Provider Data Portal Welcome Page. There, they may see certain prepopulated information from the ADA - or the information they attested to previously - making it easier and quicker for dentists to complete and attest to their CAQH profile.

Following are the steps that all U.S. licensed dentists must follow to complete their CAQH Provider Data Portal profile:

1. All U.S. licensed dentists, including ADA members and non-members alike, should begin at the ADA online portal in order to access CAQH Provider Data Portal. Visit ADA.org/godigital to login. Enter your nine-digit ADA number as your User ID. A self-service password reset feature is also available.

If you need help retrieving your ADA number or resetting your ADA password, please contact the ADA Member Service Center at 800-621-8099 or msc@ada.org (Monday – Friday 7:00 AM – 6:30 PM Central Time).

Once you enter your ADA User ID and Password, and click the Log In button, you will be directed to navigate to your My ADA Account.

Please note that located near the bottom of the ADA login page, there is an option for non-dentists to create an ADA account. This is not an option to gain access to the ADA credentialing service or to submit credentials on behalf of a dentist. Access to the ADA credentialing service is limited to dentists and currently enrolled dental students only. The dentist must be logged in to their own ADA account in order to access the ADA credentialing service.

2. If you attempt to self-register in the CAQH Provider Data Portal, the Sign In page will request that you "Register on ADA." If you try to create a new CAQH profile, the system will prompt you with an error message: "Since you are a dentist, please sign-in or register via ADA.org/godigital and follow instructions to submit your CAQH Provider Data Portal application." The system will not allow you to proceed with the registration and you will see that the Continue button is disabled.

If you are a dentist, click here to sign-in or register via www.ada.org.

Please fill in the fields below to continue registration or to confirm your CAQH provider ID.

Please complete all of the following fields:
